

Mount Vernon, February 22, 1785

# The Success of a Nation depends upon the Health of her People

The economical food that makes for sturdiness and health must rank first in the benefits to the country

## Washington CRISPS

Delicious Toasted Corn Flakes

**W**ASHINGTON CRISPS is made from America's greatest cereal—Corn. It was this cereal, Indian Corn, which saved the settlers from starvation during their first winter at Plymouth.

Had it not been for this healthful, nourishing American cereal, the brave little band of pioneers would have fallen victims to the grim specter, Famine, and the history of this country might never have been written.

Washington Crisps is thoroughly steam-cooked, toasted delicately crisp, and is ready to serve.

Made from the hearts of the strength-giving corn, with pure cane sugar and salt added.

It is deliciously appetizing and delightfully satisfying.

Every package bears the unqualified guarantee of the manufacturers.

Washington Crisps is made under the most perfect sanitary conditions possible to create, in mills that are spotlessly clean, and by high-class, skilled workmen.

Washington Crisps, during all the processes of manufacture, from flaking to packing, never touches human hands; everything is done by automatic machinery.

Buy a package of Washington Crisps and enjoy a genuine treat.
